

Daniele Occhipinti

6 Boundary Road, London, N226AD
07539 064 003
dan@plancake.com
<http://www.danieleocchipinti.com>

Areas of Technical Expertise

PHP Development (6yrs), Web Development (6yrs), HTML5 (1yr), Linux Systems Administration (5yrs), LAMP Development (5yrs), Database Design (5yrs), Software Engineering & OOP(6yrs)

Profile

Strong technical skills with an excellent academic record.
Good experience in team leading, project management and technical recruitment.
Passionate about my job. I enjoy taking part in conferences and reading relevant articles and books.

Employment History

Director and CTO <i>Since Nov 2010</i>	<i>Danyuki Software Ltd.</i> (London, UK) We run an advanced web application called Plancake. It helps people organise their private and professional life and focus on the important things. It is global, Open Source, works offline and has got a great user interface. It can be viewed at http://www.plancake.com
Lead Web Developer <i>Sep 2008 – Oct 2010</i>	<i>The Beans Group Ltd.</i> (London, UK) Working on marketing-oriented, high traffic (more than 5 million hits per month) web sites/applications. Reporting to the Director and the Project Manager and supporting the Head of Technology in strategical decisions. Roles in management of staff and projects, recruitment of Developers, server administration and hands-on development for complex areas of the business. I was the one who persuaded my company to migrate to a better framework and who built the development tools and processes and the deployment procedures. Areas of expertise: Agile methodologies, SCRUM, team leadership, regression tests, LAMP, performance optimization, Memcache, cluster of servers, PHP, Symfony framework, MySQL, HTML, JQuery, SVN, Postfix, systems integration, Zend Lucene
Senior Web Developer and Systems Admin <i>Aug 2007 – Sep 2008</i>	<i>Traffic Digital Ltd.</i> (London, UK) A dynamic Digital Agency with a big e-commerce client (Cash Converters). Reporting directly to Head of Development and Project Managers. Involved in any stage of the entire lifecycle of a number of projects. Day-to-day administration and troubleshooting on a cluster of LAMP servers. Areas of expertise: Linux, LAMP, PHP, CSS, MySQL, Javascript, AJAX, SEO, SVN,
Web Developer and Linux Systems Admin <i>Dec 2007 – Aug 2008</i>	On a freelance basis while I was a full-time employee (London, UK). Setting up a Redhat Linux server hosting the projects I developed for clients. Developing a management system for estate agencies using Symfony framework. Consultancy for small companies (refactoring, technology migration and bug fixing). Areas of expertise: Linux, LAMP, PHP, MySQL, SEO, Symfony, XHTML, CSS
Web Developer <i>Apr 2007 - Jun 2007</i>	<i>Neonetwork s.r.l.</i> (Genoa, Italy) Contract. Developing a major social networking website. Involved from the design to the performance improvement phase. Very hard-to-meet deadline, use of Agile methodologies. Areas of expertise: Linux, PHP, MySQL, Javascript, AJAX, XML, CVS, Memcached

Web Developer Jan 2007 - Mar 2007	Laboratorio Informatico s.a.s. (Genoa, Italy) Contract. Developing the in-house e-Commerce system on a LAMP Stack.
System Engineer Apr 2006 - Sep 2006	ISL S.P.A. (Milan, Italy), consultant for H3G (owner of "3 Mobile"). Developing the company automated telephone system for routing calls. Languages and Systems: Windows, Java, Oracle
Web Developer And Linux Systems Admin Jan 2005 – Jun 2006	Personal Project (Genoa, Italy) Designing and developing an advanced social networking website from scratch, leading a team of University students. Setting up the dedicated Debian Linux server. Areas of specialization: Linux, Bind, Exim, LAMP, PHP, MySQL, Javascript, AJAX, HTML, CSS, XML, Perl, Drupal, PHPBB

Education

Master's Degree: Electronic Engineering Feb 2006	Università di Genova, Facoltà di Ingegneria Elettronica, Genoa (Italy). Final mark: 110/110 cum laude (equivalent to <i>Distinction</i>). Thesis entitled "Design and implementation of control and automation applications using micro-webservers on embedded systems".
Scholarship	I was one of the best one hundred students of the year 2005 in my city, Genoa.
Publication	A. Bagnasco, D. Cipolla, D. Occhipinti, A. Preziosi, A.M. Scapolla, "Application of web services to heterogeneous networks of small devices", WSEAS Transactions on Information Science and Application, Issue 5, Volume 3, May 2006, ISSN 1790-0832

Technical Skills

Web Development	PHP4/5 (Symfony MVC Framework, PHPUnit, Smarty, PHPDoc, PEAR, WordPress), HTML5, Javascript (jQuery), CSS3, JSON, AJAX, MySQL, Apache, LAMP, Memcached, Web Security, XML, RSS, XSLT, XHTML, Lucene, Selenium Web Services, SOAP, REST, XML, SEO
Linux SysAdmin & Free Software	LAMP stack, Bash scripting, awk, sed, regular expressions, processes, networking, services and security. Wide knowledge of Linux distributions (Debian and Red Hat, above all) and Free Software aspects
Software Development	Agile Methodologies, SCRUM, Object Oriented Design, Regression tests, Design Patterns, Systems Integration, Search engines, UML, SVN, CVS, Netbeans, Eclipse Java, C, Android SDK

Additional Information

Hobbies	Dancing, playing football, watching movies, personal development.
